Manufacturer of World-Class Sensor

HIGH-SPEED CAMERA

Some Performances of SinceVision Products have been leading the world

01 INTRODUCTION

SinceVision, established in 2014 by a team of Ph.D. graduates from the National University of Defense Technology, is a high-tech enterprise deeply engaged in the fields of high-end precision sensors and high-speed cameras. The company integrates research and development, production, and sales.

Since its establishment, SinceVision has successively launched a series of products, including 3D Laser Profiler, Laser Displacement Sensor, Spectral Confocal Displacement Sensor, Through-Beam Edge Sensor, and Color Sensors. These products have entered mass production across dozens of product lines. In 2021, SinceVision expanded into the scientific research and defense markets by introducing a highly competitive High-Speed Camera product line, which quickly became the leader among domestic brands due to its excellent cost-performance ratio and top-tier quality. Its "high-speed image processing technology" and "large-capacity data storage technology" are among the best in China.

SinceVision remains committed to customer-centricity, efficient product development and service, and independent innovation. Upholding the principle of "openness, inclusivity, and mutual benefit," SinceVision continues to provide customers with the most cost-effective products and services, contributing to advancements in the high-speed vision field.

Founded in **2014**

More than **10** series
entered mass sales

High-speed Camera

Gradually leading a new benchmark in the industry

Driven by
Customer Demand

02 MILESTONE

2014

April

Shenzhen SinceVision Technology Co.,Ltd. was officially established

2016

March

Released the first generation of 3D Laser Profiler the SR7000 series.

2017

March

Obtained the titles of "National High-tech Enterprise" and "Shenzhen Industrial Stable Growth Enterprise."

2018

March

Released 3D laser profile the SR8000 series

August

SinceVision completed Round A financing

2021

March

Released 3D Laser Profiler the SR9000 series

September

SinceVision completed Round B financing

December

Released Laser Displacement Sensor - the SD series

2020

March

Released 3D Laser Profiler the SR5000 series

June

Released Spectral Confocal Displacement Sensor - the SC series

December

Established offices in Chengdu and Beijing, expanding services to the Southwest and North China regions.

2019

March

The East China office was officially established in Kunshan to serve the Yangtze River Delta region.

November

SinceVision completed Round A+ financing

December

Released Laser Displacement Sensor the SG series and the SGI series

2022

April

SinceVision completed Round B+ financing, co-led by MPC and GL Ventures. SinceVision entered the scientific research and defense markets, launching the first generation of High-Speed Camera - the SH6 series.

September

SinceVision obtained "CE Certification," "FCC Certification," "KC Certification," "Precision Certification," "ISO9001 Certification," "ISO14001 Certification," and "Social Accountability Management System Certification."

December

Released Through-Beam Edge Sensor - the SE1 series
Established offices in Dongguan, Hefei, Xi'an, and other regions, covering nationwide services.

2023

June

Released High-Speed Camera the SH3 series and Through-Beam Edge Sensor- the SE2 series

September

SinceVision completed Round C financing, led by the Advanced Manufacturing Fund managed by SDIC Fund Management Co., Ltd., with follow-on investment from GL Ventures. SinceVision was awarded the title of "National new special 'Small Giant' Enterprise."

October

Formally established the International Department, developing markets in Southeast Asia and Europe, with a service network covering the globe.

2024

February

Released 3D Laser Profiler the SRI series

March

Released white light spot photoelectric sensor - the SS1 series and Laser Displacement Sensor - the SDC series

June

Released High-Speed Camera-the SH2 series and Spectral Confocal Displacement Sensor- the SCI series

HONORARY CERTIFICATE

Honor

National high-tech enterprise
National-level specialized, sophisticated and innovative "little giant" enterprise
Specialized, sophisticated and innovative, small and medium-sized enterprise in Shenzhen
Shenzhen industrial stable growth enterprise
Member enterprises of the Machine Vision Industry Union
Top 10 Fast Growing Enterprises in Shenzhen
Excellent Enterprises in the National Innovation and Entrepreneurship Competition

Intellectual Property

52 invention patents
48 utility model patents
15 appearance patents
23 registered trademarks
57 computer software copyrights

Qualification

ISO9001 Quality Management System Certification
ISO14001 Environmental Management System Certification
GB/T 39604-2020 Social Responsibility Management System Certification
Product certification of CE
Product certification of FCC
Product certification of EMC
10 international certifications in ROHS

Openness, Inclusiveness, Win-win

SHENZHEN SINCEVISION TECHNOLOGY CO., LTD.

02

Ultra High-Speed Series

The fastest domestic megapixel high-speed camera

It is a full-featured high-speed camera built by SinceVision for high-end scientific research, national defense and military industry, aerospace, high-speed industry and other fields. It adopts special customized sensors and unique circuit design, making it have an effective bandwidth of 40Gbps and excellent imaging quality. At the same time, it has rich and scalable interfaces, allowing for more possibilities for high-speed imaging applications.

Core Features

Compatible with Gigabit network

Standard 10GbE data transmission interface

Intelligent noise removal

Factory PRNU color correction

Super stability

The products have passed multiple military standard tests

Minimum Exposure Time 100ns

210ns dual-exposure time PIV

Data is not lost when power is off

Supports customized non-volatile storage up to 24TB

Up to 1.15 million fps

1.3 megapixel @15800fps
1 megapixel @20000fps

Application

Crack growth

Arc and plasma research

Fluid jet and Cavitation

Damage assessment

Specifications

Model	SH6-116	SH6-113	SH6-109
Full Resolution	1280×1024	1280×1024	1280×1024
Full Frame Rate	15800fps	13800fps	9500fps
Pixel Size	14.6um	14.6um	14.6um
Minimum Exposure Time	100ns		
Standard RAM	40GB/80GB/160GB/320GB		
Extended Memory	4TB/12TB/24TB		
Dynamic Range	60dB		
Analog Gain	×2、×4、×8		
Bit Resolution	8bit		
Color	Monochrome (M) / Color (C)		
Sensitivity	ISO67000(M), ISO23000(C)		
Fan Control	Support turning on / off, adaptive rotary speed according to temperature, 5 levels adjusting manually		
Operating Temperature/Humidity	Standard -10~50°C, below 95% (without condensation), customizable -40~65°C wide temperature version		
Dimensions	217D×110W×110H excluding protrusion parts		
Weight	3.8kg		
Power Consumption	55W

1280×64	144000fps	3.6(s)	7.2(s)	14.5(s)	6(min)	18.2(min)	36.4(min)
1280×8	750000fps	3.9(s)	7.8(s)	15.7(s)	6.5(min)	19.6(min)	39.2(min)

※ When the recording time is based on the grayscale 8 bits, the 320GB version has twice the recording time as 160GB of memory.

※ Hard disk version supports real-time writing with full frame and full frame rate.

03

High-speed HD Series

High-speed camera with powerful performance and comprehensive functions

The high-speed high-definition series has a maximum resolution of 5 million and a maximum frame rate of 4500fps. This series applies the industry-class high-speed image acquisition and processing technology and large-capacity lossless data storage technology, and combines the innovative circuit design of SinceVision to make it have an effective bandwidth of up to 175Gbps and excellent imaging quality.

Core Features

Top in the field

High definition and high-quality color image

Professional ISP algorithm

Low noise control

Maximum in all series

2560x2016@4500fps

Multiple trigger modes

Intelligent image trigger

Dual-power supply

Designed for redundant power supply

Application

Vehicle test

Film and television production

Strain measurement

Schlieren imaging

Ultra HD Series

High-speed camera with 21 megapixel and powerful performance

The ultra-high definition series (4K, 5K) are the fastest cameras with 21 megapixel launched by SinceVision for high-end scientific research, defense and military industry, aerospace, high-speed industry, and other fields. Their powerful data acquisition and processing capabilities enable them to have a maximum effective bandwidth of 160Gbps and exceed the same level of broadcasting and television image quality, providing more possibilities for high-speed imaging applications.

Core Features

Resolution 5K

5120x4096@1000fps

Resolution 4K

4096x2048@2000fps

Level of broadcasting and television image quality

Auto white balance,
Intelligent denoising

Factory PRNU color correction

Factory dark field correction

Resolution and frame rate

Continuous and dynamically adjustable

High precision (ns level)

Time synchronization

Applicaition

Droplet analysis

Film and television production

Drop Test

Process Research

Specifications

Model	SH6-802	SH6-2101
Full Resolution	4096×2048	5120×4096
Full Frame Rate	2000fps	1000fps
Pixel Size	4.5um	4.5um
Minimum Exposure Time	1us	
Standard RAM	40GB/80GB/160GB/320GB	
Extended Memory	4TB/12TB/24TB	
Dynamic Range	64dB	
Analog Gain	×2、×4、×8	
Bit Resolution	8bit	
Color	Monochrome (M) / Color (C)	
Sensitivity	ISO10000(M), ISO3000(C)	
Fan Control	Support turning on / off, adaptive rotary speed according to temperature, multiple levels adjusting manually	
Operating Temperature/Humidity	Standard -10~50°C, below 95% (without condensation), customizable -35~65°C wide temperature version	
Dimensions	217D×110W×110H, excluding protrusion parts	
Weight	3.8kg	
Power Consumption	55W

05

Mini Series - SH3

Excellent balance between the volume and heat dissipation

SH3 is another masterpiece of MINI series for high-end scientific research and industry in SinceVision's intelligent high-speed camera family, which has a perfect balance of body size and heat dissipation through its 20-layer PCB stacking design and 10Gbps Serdes on-board interconnection technology. At the same time, thanks to the self-developed array parallel storage architecture, the maximum storage in the device can be expanded to 128GB.

Core Features

Unparalleled
clear imaging

Exceeding peers
in pixel size and
sensitivity

**Minimum Exposure
Time 100ns**

1280×256	3900FPS	13.4(s)	26.8(s)	53.7(s)	17.2(min)	28.6(min)	57.3(min)
1280×128	7700FPS	13.6(s)	27.2(s)	54.4(s)	17.4(min)	29(min)	58.1(min)
1280×8	73000FPS	22.9(s)	45.9(s)	91.9(s)	29.4(min)	49(min)	98(min)

※ The 128GB version has twice the recording time as 64GB of memory.

※ The above recording time is based on the grayscale 8 bits.

※ Hard disk version SH3-101/103 supports real-time writing. SH3-105/108 supports real-time writing with restricted parameters.

※ The hard disk version of MINI series supports real-time write speeds at 31Gbps (Max.).

SH3-103							
Resolution	Frame rate	Recording time (memory)			Recording time (hard disk)		
		16GB	32GB	64GB	1.2TB	2TB	4TB
1280×1024	3000FPS	4.3(s)	8.7(s)	17.4(s)	5.5(min)	9.3(min)	18.6(min)
1280×768	4000FPS	4.3(s)	8.7(s)	17.4(s)	5.5(min)	9.3(min)	18.6(min)
1280×512	6000FPS	4.3(s)	8.7(s)	17.4(s)	5.5(min)	9.3(min)	18.6(min)

※ When the recording time is based on the grayscale 8 bits, the 128GB version has twice the recording time as 64GB of memory.

※ Hard disk version supports real-time writing with restricted parameters.

06

Smart Series

Lightweight and portable,
with comprehensive functions

This series is another masterpiece of SinceVision high-speed camera family for high-end scientific research and national defense. Through the integrated hardware and software circuit design, the volume is further reduced, but the performance is uncompromising. It is equipped with a new CMOS sensor to provide excellent resolution and fine image details. Thanks to the self-developed flash parallel storage architecture, TB-level non-volatile storage can be obtained without changing the volume, making it possible to record for a long time.

Core Features

HD image quality

1080P@3200FPS (MAX.)

Standard 10 Gigabit Ethernet transmission interface

Compatible with 2.5G / 1G / 100Mbps network bandwidth

Minimum Exposure Time 100ns

150ns dual-exposure time PIV

Multiple interfaces

Standard RS422 serial communication interface and 3G-SDI interface

Ultimate size

It has excellent environmental adaptability

Application

Measurement in Shooting Range

Vehicle Crash Test

Microimaging

Application Test in Drones

Specifications

Model	SH2-201	SH2-202	SH2-203
Full Resolution	1920×1080	1920×1080	1920×1080
Full Frame Rate	1200fps	2200fps	3200fps
Pixel Size	10um	10um	10um
Minimum Exposure Time	100ns		
Standard RAM	16GB/64GB/512GB/1TB/2TB		
Dynamic Range	60dB		
Analog Gain	×2、×4、×8		
Bit Resolution	8bit		
Dual-exposure time PLV	150ns		
Color	Monochrome (M) / Color (C)		
Sensitivity	ISO30000(M), ISO10000(C)		
Fan Control	Support turning on / off, adaptive rotary speed according to temperature, multiple levels adjusting manually		
Operating Temperature/Humidity	Standard -10~50°C, below 95% (without condensation), customizable -40~65°C wide temperature version		
Dimensions	89D×72W×72H, excluding protrusion parts		
Weight	<0.65Kg (C port) 0.73kg (E port)		
Power Consumption	30W
